

# Trailer

(Device for Loading of Horses into Trailers Based on Monty Roberts' Methods)

---

Idea: Brigitte von Rechenberg

Design: Margrete Hofmann

Construction of Prototype: Jaques SA, Lausanne

# Trailer

---

- Device for loading of horses into trailer
- Based on theory of Monty Roberts
  - Horses are flight animals
  - If area behind them is closed they will go forward
  - They will enter the trailer without force after join-up training

# Flexible aluminum fence mounted on trailer for transport

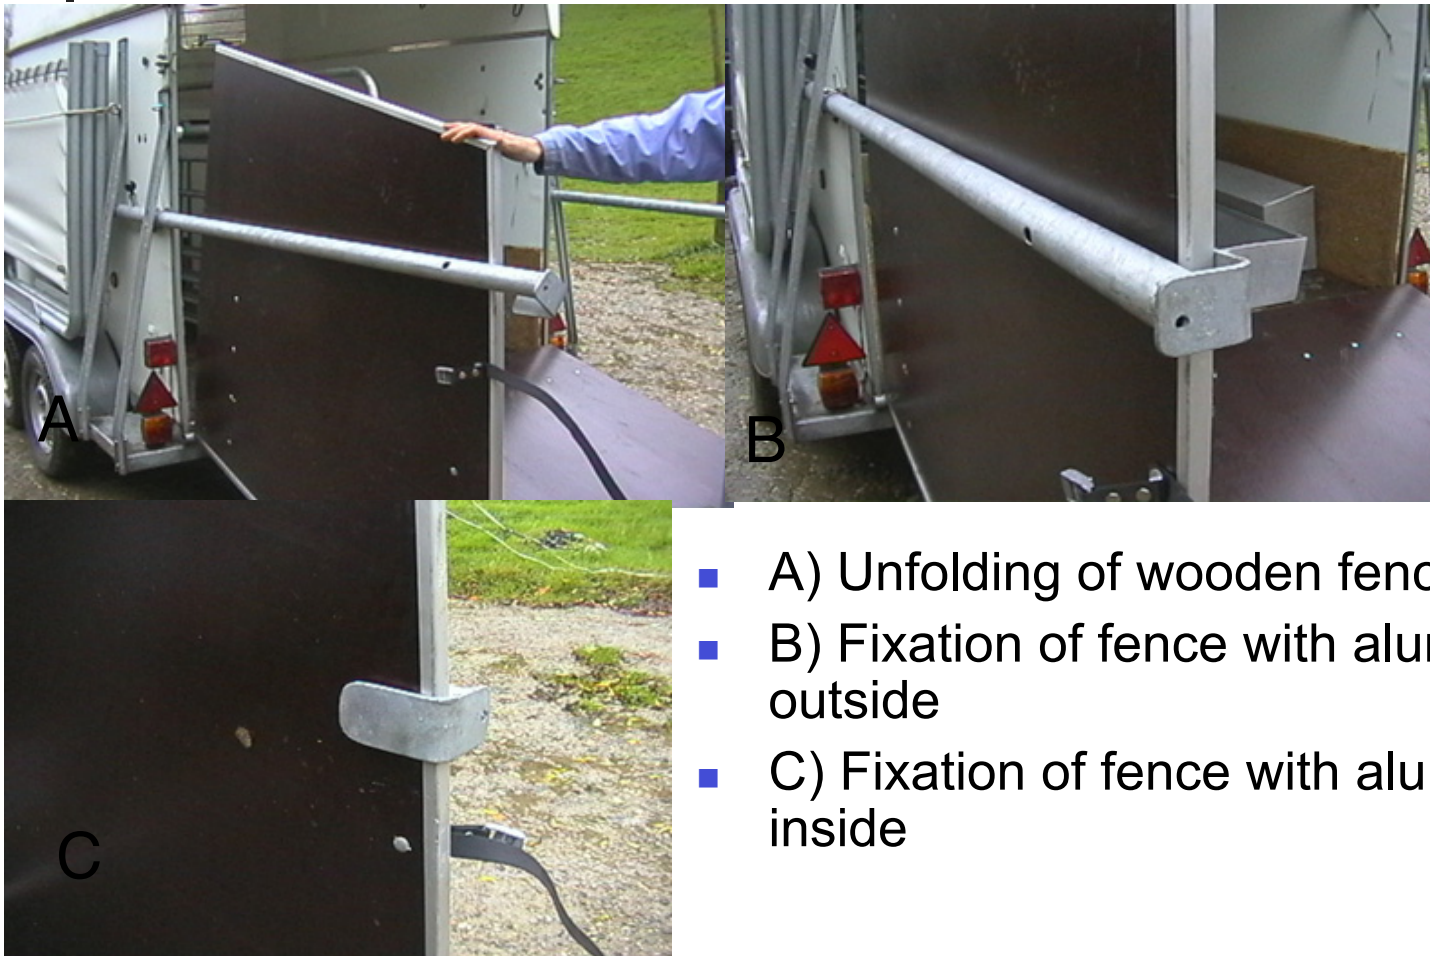

- A) side view
- B) view from behind
- C) mount on wheel case with aluminum splint

# Ramp with fixed wooden fence

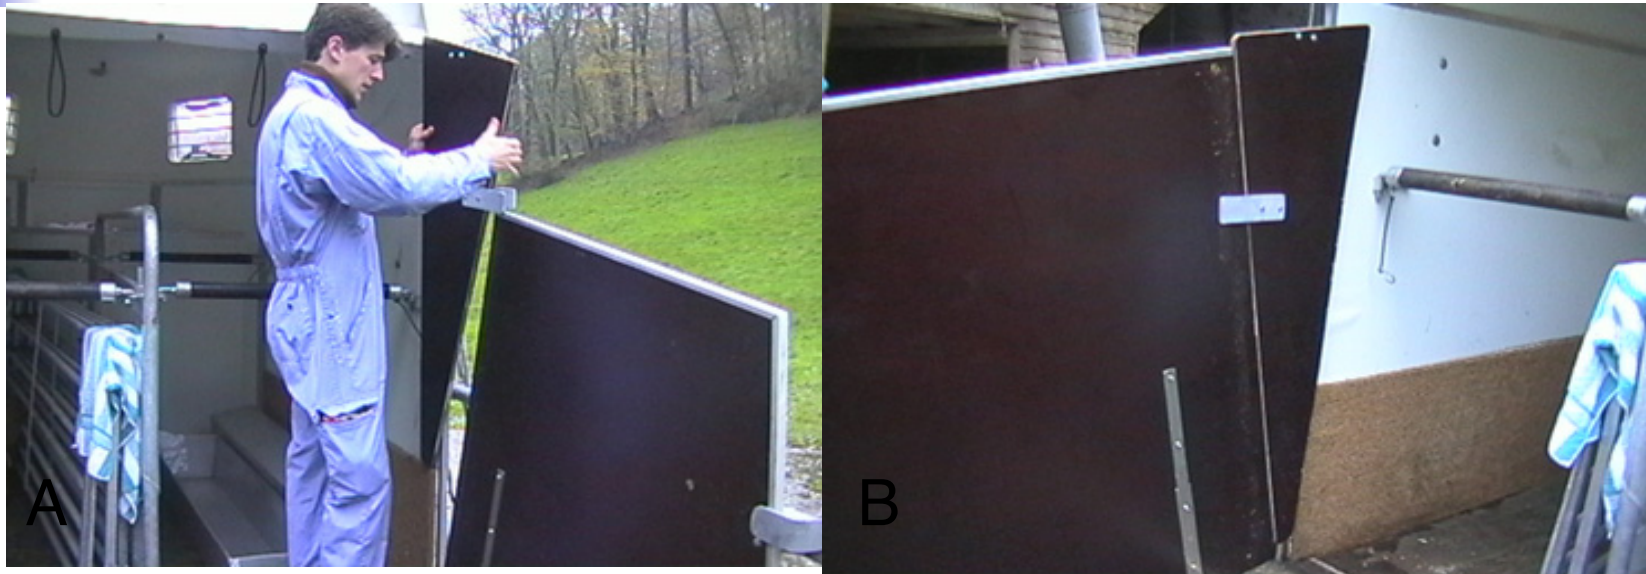

- A) Ramp with wooden fence folded
- B) Side rails extended
- C) Fixation mechanism for side rails

# Fixation of wooden fence with aluminum side rails

- A) Unfolding of wooden fence
- B) Fixation of fence with aluminum rail from outside
- C) Fixation of fence with aluminum rail from inside

# Fence - trailer interface, insertion of wooden triangle

- A) Insertion of wooden triangle, fixation with clamps
- B) Closed interface between trailer and wooden fence on ramp

# Installation of the flexible aluminum fence

- A) Down loading of aluminum fence
- B) Unfolding of left fence
- C) Positioning of left fence

# Installation of the flexible aluminum fence

- A) Final length of fence
- B) Securing the left fence
- C) Unfolding of right fence

# Entry tunnel with flexible aluminum fence

- A) Securing the right fence
- B) Final mounting of fence, Trailer is ready for horse loading

# Closing the entry tunnel

- A) Closing the fence behind the horse
- B) View of closed fence from the tunnel

# Removing the aluminum fence

- A) Folding the fence after loading
- B) Positioning of the fence for storage
- C) Mounting the fence on trailer
- D) Securing the fence on side of the trailer

# Advantage of trailer device

---

- Transportable device, may be used anywhere
- One person can use device without help
- Device can be installed on any trailer
- Installation at any time after purchase of the trailer
- Is adaptable to terrain
- No special license for trailer necessary

# Advantage of trailer device

---

- The person can load a horse alone
- Horse cannot hurt himself by falling off the ramp
- Owner stays calm and so does the horse!
- Non-traumatic experience for the horse and the owner
